

Mapping Classifications

This table maps the new classifications and sensitivity markings of the ICS against the former classifications and protective markings used in South Australia.

Then (pre-1 December 2019)	to	Now (post-1 December 2019)	
TOP SECRET	no change	TOP SECRET	Security classifications
SECRET	no change	SECRET	
CONFIDENTIAL	discontinued	-	
PROTECTED	no change	PROTECTED	
Sensitive: SA Cabinet	DLM → Caveat	SA CABINET¹	Non-security classifications²
Sensitive	DLMs → DLM	OFFICIAL: Sensitive	
Sensitive: Personal			
Sensitive: Legal			
Sensitive: Medical			
Sensitive: Commercial			
For Official Use Only³		OFFICIAL	
PUBLIC	→		
-	new classification	UNOFFICIAL	

Information Management Markers (IMM) are optional protective markings which **may** be used where a legislative or professional restriction **may** apply to disclosure of information contained. IMMs **must** only be used *in addition to* a classification of **OFFICIAL: Sensitive** or higher.

Information Management Markers	Legislative secrecy
	Personal privacy
	Legal privilege
	Medical in confidence

¹ Caveat **must** only appear with classification of **OFFICIAL: Sensitive** or higher

² **UNCLASSIFIED** was previously used to describe information without a security classification. Under the ICS, unclassified has been replaced by 'non-security classification'.

³ In South Australia, some information previously classified as **FOR OFFICIAL USE ONLY** may now be classified either **OFFICIAL: Sensitive** or **OFFICIAL**. Agencies **must** consider the potential business impact when making this determination.
