## The Power of Co

## The Power of Co

Commit to Collaboration

Co-define Dilemma

Co-design Process

Co-create Solution

Co-deliver Actions

Committing to start the collaborative journey together:

- Understand & recognise complexity
- Acknowledge the need to work with others
- Build positive relationships through learning & working together

CHECK POINT:

Are we all ready to start the collaborative journey?

Understanding the dilemma we need to solve together:

- Understand and value all perspectives
- Scope and right-size the dilemma together
- Describe success from all the diverse stakeholder perspectives

CHECK POINT:

Do all stakeholders agree on a definition of the dilemma and what matters about the solution?

Designing the process together:

- Consider context and resources
- Share process options
- Co-design governance structure and engagement process

CHECK POINT:

Is there an agreed
governance structure
and design for the
decision-making process?

Creating new solutions together:

- Thoughtful deliberation
- Appreciate and value emergence
- Faster outcomes

CHECK POINT:

Is there consensus
on a solution?

Making it work together:

- Advocate for implementation
- Design implementation structure, roles & process
- Establish a monitoring & evaluation framework

CHECK POINT:
Has each stakeholder signed up to their role in delivering the agreed solutions?
