

What does **digital inclusion** mean to you?

What does **digital inclusion** mean to you?

What does **digital inclusion** mean to you?

By sharing your experiences, you will help us ensure all South Australians are represented in the development of South Australia's first Digital Inclusion Strategy.

Being *digitally included*, means that you are able to use the internet in a way that meets your needs, and that gives you equal access to online services, information and opportunities.

Everyone's situation is unique, but some reasons for not being included are:

- being able to use devices and websites
- knowing where to access public devices or wifi, and getting help or training
- being able to afford devices or data
- not trusting how your data is stored or used.

Provide feedback on what digital inclusions means to you by visiting [yoursay.sa.gov.au/digital-inclusion-strategy](https://yoursay.sa.gov.au/digital-inclusion-strategy)

You can take the **survey**, or leave your **comments** before 30 November 2021.

Or call the Digital Inclusion team on **0466 517 900** 9am-4pm Monday to Friday.
